EXPERIENCE

CYLINDER TRAINING SERVICES

2012- PRESENT

Own and operate independent company which creates training programs for handling, filling, and inspecting high pressure cylinders and valves. Developed specialized tools necessary to complete a proper inspection of cylinders. Developed and created ways to document and log the process, both in writing and electronically. The company focuses on all industries using cylinders, fire service, fire suppression, beverage industry, SCUBA, paintball, aviation and cryogenics.

PROFESSIONAL CYLINDER EXPERIENCE

1999 - 2012

Developed training programs for the cylinder industry including fire and SCUBA. Helped update programs, instruct users and market products. Left company to develop my own training program.
